We learn from him that the Prince of Wales is travelling throughly at home in the Emerald, and expressed his belief to the effect that he would like to reside there permanently. Mr. Walker is in possession of several valuable prizes obtained from the hands of the Princess at athletic sports and yachting games. Belleville, the seat of the College, is well known in the Emerald. Mr. Walker is a thirteenth student who has come from the Island.

REARDED GOLF.—At last, a plan of the proposed site for the golf course has been prepared, to be followed shortly by that of the parade ground. In the meantime, the committee having the matter in charge should communicate to the Board of Officers full information as to what inducements the city will offer. The Department will only require to be furnished free of charge with drinking water, latrines and buildings wherein to store arms and accoutrements. The cost of these items would be a mere nothing compared with the amount of money that would be expended here and there upon a large body of troops. Other places are bidding keenly for the prize and we shall certainly lose it unless we instantly exercise much greater activity.

Police Matters.—

At a meeting of the Board of Commissioners of Police held yesterday, the following amendments and additions were made to the regulations of the force adopted in April, 1878, viz., under the heading "General rules and duties of the force":

No member of the Police Force shall speak disrespectfully or in a disparaging way, or make comments of any kind upon the conduct of any other member of the Force, or, in the presence of any person on duty, of suspension or dismissal.

All complaints must be made in the manner prescribed by the rules, and in no other way.

Under heading "Prohibitions," the following was added: No member of the Police Force shall permit any person to use his business to transact with the Force to make the Police station a place of resort, or to remain there longer than his business with the Police requires, nor permit any person to accompany him while going patrol duty.

All complaints must be made in the manner prescribed by the rules, and in no other way.

Dramatic and musical entertainments have languished in Belleville of late; not that the residents here are less fond of the theatre than in former times, but because there is not a safe and commodious amusement hall, fitted with satisfactory scenery, and capable of seating a large audience. Sullivan's latest burlesque opera, "Iolanthe," by Rice's company, however, attracted a very large audience who braved the danger of the theatre hall, last night, and were well rewarded. The result was eminently satisfactory in every respect but one. That one was sufficient to cause every person present to blush for the lack of enterprise in the management being compelled to announce that they could not have the line company for the second act, the stage being too small to allow of its being done. The number of the company who made the painful announcement expressed the hope that on their next visit to Belleville the company would appear in a larger and more convenient house, and in this hope we heartily concur. It is wisdom to strike while the iron is hot, and we throw out the suggestion, that if some one would come forward with a well suited hall for the purpose of a new Opera House, while the feeling engendered by last night's partial success is still warm, there would be little doubt of its securing the money for the erection of such a structure.

As to the Opera itself and the manner in which it was placed upon the stage and performed, we have nothing but words of praise. The criticism here is that many of Mr. Gilbert's bits in "Iolanthe" are not up to the standard of his earlier efforts. We dissent from this judgment. The satire is kept at times, and the music does not abound in taking airs, as does that of "Iolanthe," whilst it is not of high an order as that of the "Pirates of Penzance," but to our idea it is much superior to that of "Patience," and more lively, on the whole, than that of the other productions of the same distinguished author.

The costumes were fine and elegant, the chorus well trained and numbering several five voices, the orchestra was quite strong enough for the hall, and a great deal of the characters were entrusted to those who could not only sing the music but interpret the text of their parts to the entire satisfaction of the audience. The result was a smooth, well-timed performance such as is rarely witnessed on the local stage. It is unnecessary to criticize the performance given by the individual members of the company, but we make two exceptions. Miss J. M. Smith, who was so extravagantly praised in the advertisement, was, in our opinion, what was said of her. She is a child in stature, but her voice is so fine in quality and so powerful, her gestures so significant, her glances so arch and her personality so charming, that she won the hearty appreciation of her audience. It is a pity that she sang. Mr. Robert Evans, the bass of the troupe, also deserves a word of praise. He has been comparatively neglected in notices of the performance given by our contemporaries, but his part in the most important scenes of the second act. It is to be hoped that the same company will pay another visit to Belleville at an early date.

Domestic Matters.—

FIFTH PARLIAMENT—FIRST SESSION.

OTTAWA, May 2.—The Northwest land question was again fully discussed in the House of Commons to-day. The reading of Sir John Macdonald's bill Mr. Charlton made an attack on the system of granting Northwest lands to speculators, and argued that the best interests of the country demanded that the land should be sold to actual settlers.

He defended the regulations concerning Colonization Companies previous to the last election for party purposes, and had granted large and valuable coal areas and timber limits with the view of securing a large vote.

By moving that the bill be recommitted for the purpose of inserting a provision to the effect that no land should be granted to any but bona fide settlers, and only in such quantities as could reasonably be expected to cultivate.

During his remarks Mr. Charlton referred to Sir John Macdonald as one "well stricken in years." This seemed to have the effect of sparing the Premier up to show that although not so young as he used to be, there is plenty of life in him yet, for his reply was the most vigorous assault ever delivered this session, and it was generally remarked that he has not been in such good form for a long time.

He defended the regulations concerning Colonization Companies, and said that a few years ago when on the Government side of the House Mr. Charlton had supported the very thing he was now condemning. He denoted the importance of improper outlets to the Government in connection with the grants of Northwest land as ignominious and ungentlemanly, and concluded by declaring the amendment identical with the one he had proposed.

After a few remarks by Dr. Borgia, Dr. Charlton replied briefly to Sir John.

The amendment was lost on a division of 40 yeas to 10 nays, and the bill was then read a third time and passed.

The House then took Mr. Supply and passed a number of items.

SHORT IN CASH.

CLEVELAND, Ohio, May 3.—Frasco, colored, and Sawyer, white, prisoners in jail on remand, yesterday fought four rounds in the corridor; both were badly punished, and were separated by the officials of the jail.

THREE CIVILS SHOT.

RANDOLPH, Mo., May 3.—It is reported from the lumber region of the Atwood that the spruce trees are dying rapidly. Last winter's operations were begun in a part of the township where it was expected 7,000 ft. would be cut, but only 75,000 feet of sound spruce could be found. An examination showed the spruce in the rest of the township to be the same condition. As far as ascertained no worms are at work on the spruce, and the cause of the decay is a mystery. The tops of the dead spruce trees are reddish in color, as though scorched by fire. In a number of the township it is estimated that three-fourths of the spruce trees are dead. The loss to the owners of the land will be very heavy. It is suggested that the trees are dying of old age.

RAILWAY NOTES.

NEW YORK, May 3.—It is stated sufficient funds have been raised to take the Central railway of New Jersey out of the hands of the receiver and a practical disposition of the receiver is merely a matter of a few days.

It is announced the New York, Westchester and Buffalo railway have made arrangements with the Erie to use the latter's tracks from Buffalo to connect with the entire Canadian system of railways.

COPENHAGEN, May 3.—A Danish expedition has come to explore Greenland.

GRAND EXTENSION IN ENGLAND.

PATENTHOOD, Reg. May 3.—Fitzgibbon street, one of the principal thoroughfares, was partially blown up last night. Great alarm was caused when it was thought to be the work of the dynamite fiend, but now it is believed to be due to the lighting of a gas in the sewer. The houses on the street were much damaged.

ON OUR THROUGHTS.

DURHAM, May 3.—The Grand Jury were sent back to reconsider the case of Martin, the bill against them they rejected, and after again deliberating they returned a bill.

PROSECUTING THE CONSPIRACY.

DURHAM, May 3.—The Grand Jury returned true bills against Tyan (No. 1), John Walsh, and F. G. Sheridan for murder, and against Fitcher, as accessory after the fact. It is understood the Government will demand the extradition of Walsh, Sheridan, and Tyan from America.

THE GRAND JURY FOUND TRUE BILLS AGAINST LAWRENCE HANSEN, James and Joseph Muller, and Daniel Dineen, charged with attempting the murder of Jure Fitch. They also found true bills for conspiracy to murder against the two Mullers, Hansen, Edward McCreary, Edward O'Brien, Geo. Smith, Peter Doyle, Thomas Doyle, Wm. Mooney, and Daniel Dineen. The bill against Thomas Martin charged with the same offense, was rejected.

JAMES MULLER was arraigned this morning charged with conspiracy to murder and planned murder. William Moore also pleaded guilty on a charge of conspiracy to murder. Several other charged with the same offense are expected to plead guilty. Hansen, charged with the murder of Fitch, pleaded not guilty. The trial has begun.

It is a curious case, orange, olive, pale in the head, striped, pale in the chest, in fact it is a queer specimen, as to appearance, it is a real beauty. Dominion Parliament.
FIFTH PARLIAMENT—FIRST SESSION.

OTTAWA, May 6.—The Speaker took the chair at three o'clock.

Sir Leonard Tilley presented a message from His Excellency, transmitting supplementary estimates for the year ending June 30th, 1883.

On motion they were referred to the Committee of Supply.

Mr. Bowell introduced a bill respecting the harbor-master of the harbor of Three Rivers. He explained that the object of the bill was simply to empower the Harbor Commissioners to appoint a harbor-master, and to confirm an appointment already made.

The bill was read a first time.

Mr. Cattanog moved the third reading of the bill to consolidate and amend the several acts respecting the inland Revenue. Carried.

The House resolved itself into a Committee of Supply.

On the appropriations for Customs, Mr. Bowell explained that the increased appropriation was proposed in order to provide for an increase in the number of the clerks to be employed in the Customs. The increase was to be made in the salaries of a number of clerks in the Customs office. These clerks had been receiving but \$600 a year for some time, and he proposed to raise up to \$800 to \$1000.

The appropriations for the Customs, Fishery, and Excise Departments were passed.

After which the House adjourned.

AFTERNOON DESPATCHES.

THE SPIRIT OF SUCCESS BROKEN.

MIDLAND RAILWAY OF CANADA.
PETERBOROUGH, Ont., May 4th, 1883. The traffic of the above Railway for the week ending April 28th, 1883, was as follows: Passengers and mail, \$5,454 14; freight, \$120,287 total \$125,741, as compared with \$21,156.39 for the corresponding week of 1882, being an increase of \$79,075 and the aggregate traffic to date is \$273,223.31, being a decrease of \$556.73 over 1882.

J. FATTY JEFFERS, Auditor.

—Later information increases the loss of life by the *Granadier* disaster at Barrow Island to at least seventy.

The verdict of the coroner's jury in the Vale Colliery disaster attributes the death of the six miners to an accident, and finds that the regulations of the Mining Act were complied with.

MORNING DESPATCHES. AMERICAN.

AN RIDING OF SMALL POX.
WASHINGTON, W. Va., May 7.—The small pox plague is raging in Mercer County. The disease originated two weeks ago from a tramp who was taken sick, and who stopped at the house of a farmer named Blacksmith. In a day or two Blacksmith was taken sick with an eruptive disease, and the doctor pronounced the trouble chicken pox. The patient died, and the funeral was attended by 200 people. As a consequence the disease was distributed throughout the County. The physician was taken sick himself, and after visiting his patients for several days, he called in a brother physician, who, for the first time, made known the character of the disease. The disease spread with alarming rapidity. Up to this time forty cases have occurred, and 16 deaths. The situation is daily becoming worse, and the greatest alarm prevails. The County has been put under strict quarantine by the State Board of Health. A County Vigilance Committee has been formed, and with a special vote of money by the County Court are superintending the imprisonment of nurses, making vaccination compulsory, and doing everything possible to prevent the further spread of the disease. So far there has not been any intelligent success. The greatest indignation is felt towards the delinquent physician, who, though he is a brother of the people, made known the character of the disease, and spread with alarming rapidity. Up to this time forty cases have occurred, and 16 deaths. The situation is daily becoming worse, and the greatest alarm prevails. Daily Intelligencer.

BELLEVILLE, WEDNESDAY, MAY 9.

A Hamilton "Times" Joke.

The Hamilton Times is very much annoyed by the criticism which we are constrained to administer to it for its self-complacent and unbecomingly presumptuous of the free trade doctrine, that on Monday last, which it endeavored to tilt at, in its issue of Saturday last, it hit out wildly, in an attempt, which is but a tirade of low abject directed against the Intelligencer, in which the editor of the Times is referred to as a lunatic who "swallows without winning economic fallacies which would nauseate any sane man," and to whom the following advice is tendered: "Belleville is no longer a village, and we hope to change in the Intelligencer a speedy advancement to the plane of reputable journalism. It is easier to quibble and learn before it lectures." We are at a loss to know who the editor of the Times is, and who the abhorrent remarks, a second joke, it has certainly, without intending to do so, succeeded in getting off one of the best things of the season. By the words "plane of reputable journalism" the editor of the Times is, in the abhorrent remarks, a second joke, it has certainly, without intending to do so, succeeded in getting off one of the best things of the season. By the words "plane of reputable journalism" the editor of the Times is, in the abhorrent remarks, a second joke, it has certainly, without intending to do so, succeeded in getting off one of the best things of the season.

New Coasting Regulations.

We have been favored by the Collector of Customs with a copy of the newly adopted coasting regulations, which are now in force. As important changes have been made in the regulations, we supply the following summary for the information of all concerned.

1. Vessels and boats employed in the transport of goods, or passengers on one port or place to another port or place within the limits of the Dominion of Canada, shall be deemed to be engaged in the Coasting Trade and shall be subject to the regulations governing the same.

2. None but British registered vessels and boats wholly owned by British subjects and such other vessels or boats as may be owned by the subjects of countries included in any treaty with Great Britain by which the Coasting Trade is mutually conceded, are lawfully engaged in the Coasting Trade of the Dominion of Canada, and the names of their Port of Registry shall be distinctly painted on the stern of the said vessels or boats.

3. Such vessels and boats may trade without being subject to entry or clearance, provided that the master or owner shall have taken out a license from a Collector of Customs.

4. This license shall be produced by the Master to any officer of Customs on demand, all questions shall be answered, the vessel shall be liable to search, and if any prohibited or smuggling goods should be found on board, or if the vessel had been unloaded before the Master has taken out a Customs officer, the goods and vessel shall be forfeited and the Master shall incur a penalty of \$100.

5. Before any coasting vessel or boat shall depart from any port or place within one of the Provinces of the Dominion of Canada, for any other port or place in the said Dominion, a report must be made to the effect that the vessel is bound for a particular port or place, and that it will not touch at any foreign port, nor take on board, nor put off any goods liable to any revenue impost. The report is made to the effect that the vessel is bound for a particular port or place, and that it will not touch at any foreign port, nor take on board, nor put off any goods liable to any revenue impost. The report is made to the effect that the vessel is bound for a particular port or place, and that it will not touch at any foreign port, nor take on board, nor put off any goods liable to any revenue impost.

6. Before any coasting vessel or boat shall depart from any port or place within one of the Provinces of the Dominion of Canada, for any other port or place in the said Dominion, a report must be made to the effect that the vessel is bound for a particular port or place, and that it will not touch at any foreign port, nor take on board, nor put off any goods liable to any revenue impost. The report is made to the effect that the vessel is bound for a particular port or place, and that it will not touch at any foreign port, nor take on board, nor put off any goods liable to any revenue impost.

7. Goods under a removal bond from one Canadian port to another Canadian port may be carried in any British registered vessel or boat trading coastwise with a proper license upon such goods being properly entered in the report outward and clearance in duplicate, but no goods under bond shall be carried in any coasting vessel or boat without being reported and cleared.

8. No coasting vessel or boat shall touch at any foreign port unless forced by any unavoidable circumstances, or otherwise.

9. By a Collector of Customs or officer of Customs, and the master of any coasting vessel or boat which has touched at any foreign port shall declare the same in writing under his own hand to the Collector or proper officer of Customs at the port or place in Canada where the vessel or boat afterwards first arrives, under a penalty of \$100.

10. Officers of Customs may board any coasting vessel or boat in any port or place, and at any period of the voyage, and may examine all goods on board, and demand all the documents which ought to be on board; and the Collector may require such documents to be brought to him for inspection.

11. No fishing boat or boat used in fishing under fifteen tons burthen shall, except by special license or permission, carry any goods from a foreign country, which are liable to duty, under pain of seizure, unless the same in the case of ferry boats be for the sole use of some passenger then on board.

12. No goods can be carried in any coasting vessel or boat, except such as are laden to be carried at some port or place in Canada, and no goods shall be taken into or put out of any coasting vessel or boat while on her voyage by river, lake, or sea.

13. The reports required by these Regulations may, in the case of coasting vessels, be made by a Purser, or signed by such Purser, with the like effect in all respects, and subject to the like penalty on the Purser, and the like forfeiture of the goods, in case of any untrue statement or violation of the Regulations, as if the report was signed by the master.

A Bullet in His Brain.

THE DEATH OF A YOUNG MAN BY A BULLET IN HIS BRAIN.

LOCKPORT, N.Y., May 8.—Yesterday afternoon a young man named George Connor, aged 19 years, was accidentally shot and killed by David Walker, aged 15. They were met with the city attempting to shoot goats with revolvers. Young Connor was standing in the range of his comrade's weapon and discharged, and the bullet penetrated the brain. The wound resulted in death in a few minutes. The affair is regarded as a pure accident.

The Salvation Army.

At a recent annual meeting of the Salvation Army in London, Gen. Booth stated that the army had now 401 corps, with an income derived from them of £212,000. The rental of barracks entailed an expenditure of £21,000 a year; and the army had property of its own now worth £150,000, upon which there was a debt of £24,000. About £10,000 was contributed during the day. Among those who took part in the meeting was a Yorkshire woman 84 years old, who said she had been in prison 20 years for drunkenness.

Mr. Charles will also continue the address on the Tabernacle on Sunday evening. The address will be at 8 o'clock, and the large oil painting to illustrate the subject.

AN EARLY MORNING BLAZE.

Narrow Escape of the Metropolitan Hall.

What very many of our citizens were in dread of, viz. a fire in the Metropolitan Hall, occurred on Sunday morning, and had it not been for its fireproof construction and the prompt action of the brigade, a very serious conflagration might have resulted.

About 2:15, the cry of fire was heard in Front Street, and very soon after, the hall was ablaze. The fire was soon on hand, and having got to work really, the flames were subdued in a very short time and all danger was over and the hall was saved.

The origin of the blaze is involved in mystery. There has been no fire in the hall for several weeks, and it is first thought that the flames originated through careless use of the work of an incendiary.

Sergeant Finley, the janitor of the building, was the first to give alarm. He stood on the stage in the hall, and was awakened by the dense smoke that filled the building. He removed his trunk and the contents to the ground, by means of the hoist in the rear of the hall, and pointed Front Street by the stage entrance.

When Sergeant Finley arrived on the scene, he was met by the fire brigade, and the fire was soon on hand, and having got to work really, the flames were subdued in a very short time and all danger was over and the hall was saved.

THE PHOENIX PARK MURDER.

The Chief Murderer Hung.

How He Met His Fate.

He Died But Maken No Sign.

BY BRADY HARRIS.

DONATE, May 14.—Brady, convicted of participation in the Phoenix Park murder, was hanged at 8 a. m. Brady was the first man hanged for the crime with the firing squad.

Donate, May 14.—A vast concourse gathered outside the prison yard in which Brady was to be executed, this morning. A strong force of cavalry, infantry, and police was present. There was no attempt at disturbance.

The morning opened beautifully, but there were clouds about the time the execution took place.

Brady was at 6:35. Captain Kennedy of St. James' Church, and Father O'Reilly, administered the sacrament. The prisoner in the prison chapel. All three remained loyal until the arrival of a Maroon, the hangman, ready submitted quietly while his arms were being placed, and walked slowly and unflinchingly to the scaffold.

The block fell, indicating that the execution had taken place, was followed over the prison walls by a large concourse of people. A cheer and shout with murmurs, were soon a distance coming toward the prison. The police, however, prevented the vehicles from getting within 500 yds. of the prison.

After the hanging Brady's friends would have been excited to the people to a demonstration by pelting with the empty hearse toward the city.

Brady was visited by his mother last night. She was heard to exclaim, "My God, my God, my God, you think I am a fool! It is stated the mother threatened to do her best to save the Government any infatuation."

A wreath of flowers was received by Brady, which was placed on a card bearing an expression of grief at his fate, from Irishmen living in London.

Brady made no statement to the jail chaplain or to the Governor of the prison. One of the last things he did was to write a letter to his mother. He carried a prayer book in his hand to the scaffold and was thoroughly resigned and firm. His body fell 9 feet and death was instantaneous. Brady was dressed in the same clothes that he wore during the trial.

It is estimated that the crowd outside the jail numbered ten thousand. It is said that the throng was even greater than any of those which collected when the execution was public. At the moment the block fell, seen over the jail the cry was raised "hail off" and every head was uncovered and the crowd shortly afterwards dispersed quietly.

CARPET DEPARTMENT.

I AM now receiving a shipment of Brussels Carpets and Linoleum from the factory in England.

This week we expect another shipment of Tapestry Carpets, and will have ready for sale at the season's advance.

We have by far the largest assortment of Brussels and Tapestry Carpets in the city, and the patterns are arranged in all the latest styles to any other shown in the city.

We purchase direct from the manufacturers and command the lowest prices.

Tapestry Carpets are commencing at 25¢ per yard, and Brussels are from 15¢.

Floor Oil Cloth, of which we have now a large variety of patterns, are commencing at 35¢ per square yard.

Belleville, Tuesday, May 15

City and Vicinity.

Many musicians made music to-day.

An English mail arrived this morning.

Several tramps and two drunks were in the lock up last night.

Announcement of the Mayor's law is the M. P. W. Williams, of Montreal.

Mr. E. G. Gaudin has gone to Colorado to inspect mining property there for Eastern capitalists.

Mr. J. B. Graham places his loss by the fire on Sunday morning in the Metropolitan Hall at \$2,000.

The Oka Lacrosse Club met last night and decided to have a game here on the 24th—probably with the Princeton club.

As open meeting of the Workmen's Temperance Association will be held tonight, and everybody will be welcome.

The prices offered for the Regatta, a canoe race on the 24th are: 1st \$40, 2nd \$15.

The meeting of the Bicycle Club will be held tonight at 8 p. m. at the Regatta, instead of Thursday evening, as stated in last night's issue.

GEORGE FISHER, who is charged on suspicion with setting fire to the Metropolitan Hall, appeared this morning in the Police Court and was remanded until this afternoon.

The Licensing Commissioners of East Hastings, at their meeting on the 14th, granted 30 tavern and 3 shop licenses for the present year, and one extension for three months, and closed the business for the present.

ALFRED BRYAN died last night after being confined to bed for a few days. He had been a delicate constitution, and his disease, consumption, at last made such inroads upon his system, that he was obliged to quit his business. He was very popular, and cheerfully so, as he was an exemplary young man.

The estimated cost of work to be done in each Ward of the City, by the Street Surveyor, is as follows: Foster Ward, \$700; St. James Ward, \$1,200; Kensington Ward, \$600; St. Andrew Ward, \$500; St. George Ward, \$800; St. John Ward, \$1,500; Murray Ward, \$3,500. The above does not include sidewalks, for which an additional sum of \$4,500 is needed.

Mr. GEORGE THOMAS, who, on Saturday night, opened a brothel stall on Bridge St. 4 doors east of Front St. on the south side, George has had a large experience in the brothel trade. He is an excellent judge of cattle; is a close buyer, has already made some excellent purchases of beef, sheep, mutton, etc., and his patrons may rely upon his giving every satisfaction.

WEATHER FORECASTERS—Toronto, May 15.—Lakes, fresh to strong north-westerly to north westerly winds, clearing weather, with a few local showers, stationary or slightly higher temperature.

BELLEVILLE, WEDNESDAY, MAY 16

City and Vicinity.

Shows how pass by.

Two arrests were made last night.

Nine cars of emigrants passed up this morning.

Mr. W. Nones, railway postal service inspector, went east to-day.

Boys' timber will be taken away this evening by one of Calver's Go's to the

How A. Mackenzie and wife passed on the noon train. They go to England.

The adjourned meeting of the Yacht Club will be held on Friday night at Hambley's.

The clock is once more lighted, and with few exceptions, everybody is pleased thereat.

The great demand for tinse in all the new shades can now be supplied at Miss Hudgins.

The adjourned meeting of the members of the Mechanics' Institute will be held on Friday night.

Mr. Jones' printer has purchased the Miller residence on East Bridge street. Consideration, \$5,800.

Kameralia will not be presented to-night, and Basil Kirwin, who was to follow, will skip to another town.

Mr. John Hobble, of Amelburg, has a coat that when folded smelt 104 hams, and girted three men.

The open season for pickled hams began this morning. A very large quantity was caught very shortly after twelve last night.

Dr. Farmer went to-day to see his brother, Captain Farley, whose condition is still low, though nothing serious is anticipated.

The Institute for the Deaf & Dumb closed yesterday, and all the pupils - with the exception of two where sister-homes have gone home.

The Government Inspector of Bolders arrived here this morning, and was engaged to-day in testing the steaming capacity of the new hoes.

Mr. George Pore went to Montreal to-day. He is now the agent of Nelson & Sons, one of the largest cattle dealing firms in Great Britain.

A large number of people went from here last evening to Toronto, who proposed interviewing the Attorney General on the "Ferry question."

Two tramps who complained of hard fare and the hard place at the Police Station were offered 25c. per hour to shovel grain to day, which they refused. It was not work they were after.

The first of the season will be that of the St. Andrew's Society and the Odd-fellows' Band, which is to take place at Massena point on the 24th. We hope to see a large turn out on the occasion.

In the Police Station, the hearing of the yesterday afternoon, when the hearing of the case against him was resumed. The result was that the charge was dismissed and the probability is that an action for illegal arrest will follow.

No. 105, 10th Division, will meet to-night at 8 o'clock. The object of the meeting is to receive uniforms. New members will be enrolled, and the Company will not doubt soon resume its place among the other companies of Belleville.

A young man named Daniel O'Connor is the employer of Messrs. Gilmore & Co., Toronto, but has been caught by the police between the hands of the men from hand to other, necessitating the amputation of his arm near the shoulder. The loss of blood has been great, and his recovery is expected.

Amateur of those very much enjoyed on young men was given by the Workingmen's Temperance Association in their hall, last evening, which was very largely attended. The programme presented an excellent one and was much admired by all present. Prof. J. A. Stanistat presided at the piano, and Miss Brown kindly volunteered to sing two or three songs, which were loudly applauded. Both have the hearty thanks of the Association for their efforts to assist in the good cause. Another entertainment of the same style will be given next Tuesday evening at 8 o'clock to which all are invited to attend, free of charge.

We have received from the publishers a specimen number of *The American Angler*, a weekly publication, devoted entirely to the art and science of angling. It is a very valuable work, and a copy of the special issue entitled "The Trout of American Waters." This work cannot fail to be accepted and approved by all lovers of the "gentle art" - every genuine disciple of Isaac Walton. The special number gives description and figures of the Brook Trout, Salvelinus fontinalis, and the Lake Trout, Salvelinus namaycush, and relates many "fish stories" respecting them and their captors. The figures are correctly drawn, and beautifully engraved, and the letter press is a fine example of typography, and is further illustrated by several cuts representing some of the "Delights of Angling."

Marine.

The Annandale, lighted up to Trenton this morning, 3,000 bushels were sold to Philippenberg, for \$300.

The D. Deems' came in with 300 bushels of corn and will load to-day.

The Wheel.

A large and enthusiastic meeting of wheelmen was held last evening in the store of Mr. S. G. Retallack. After discussion it was resolved to call the club "The Belleville Bicycle Club."

The officers elected for the ensuing year are:

President - Mr. S. J. Clarke.

Deans - Mr. A. D. Dan.

1st Lieutenant - Mr. Fred Macoun.

2nd Lieutenant - Mr. A. Price.

Secy. - Mr. J. F. Wills.

Managing Committee: E. G. Ponton, S. G. Retallack, J. Hawley, and J. H. Carter.

Cheese Market.

May 16, 1888.

The local cheese trade is quiet, as the April market is about all purchased at 11c. The May cheese is not ready for market. The make so far has been fair, with the prospect that by the end of the month the supply may be fairly large as last year. The cable states at 60c. against 60c. at the date last year, 68c. 6d. in 1881, 68c. in 1880, 74c. in 1879 and 62c. in 1878.

O. North, of Manchester, Ontario Co., N.Y., writes: "I obtained immediate relief from the pain in my back, by using Dr. Williams' Pink Pills for Pale People, after several years' suffering from rheumatism and neuralgia. I have been cured of my ailment, and am now able to do my usual work."

OBITUARY.

Mr. MARGARET CAMPBELL, widow of the late James Campbell, died here yesterday afternoon at 2 o'clock. The deceased about four years ago suffered a paralytic stroke, and a year afterwards recovered another, since which time she gradually failed. Two weeks ago she was obliged to leave her bed and gradually failed to rise, passing on.

Deceased came here about 20 years ago. She was born in Scotland and arrived with her parents in 1831. The family settled in Trenton and soon after came to Belleville. She died at Belleville from a uremic condition, the result of long illness, and was known by every old resident of the city.

She leaves four children, Andrew Kennedy and Miss Urquhart, of the City, Hugh Kennedy of Montreal, and Jas. Kennedy, of Oswego, N. Y.

The funeral takes place to-morrow afternoon at 2 o'clock.

Campbell Correspondence.

CAMPBELL, May 16, '88.

The paper mill at Macay's Falls, just below our village, is again in operation, and the new Company is running a day and night. 20 hands have already been engaged, and the business will be carried on steadily throughout the year. Some of the most skillful workmen are employed, in order to secure the best material for merchandise.

F. Pickett, who is well known as one of the most successful agricultural implement salesmen in this neighborhood, has sold already two carloads of the Mason Seed drill, and with other machinery, he has always on hand in this village.

We have a cold, backward season here, with frost almost every morning. Vegetation is almost at a standstill, and gardening operations are very slow.

Can you find a case of Bright's Disease of the Kidney, Diabetes, Urinary or Liver Complaint, that is not cured by Dr. Williams' Pink Pills for Pale People, or cannot cure? Ask your neighbors if they can.

Amelburg Correspondence.

Every one you meet is complaining of the lateness of the season, and all the old heads declare they have seen nothing like it since the spring of 1857 - and yet the crops are not so much affected. Ask your neighbors if they can.

There has been a great deal of sickness in this Township during the past two months. Mr. Huxman, and Mr. Cunningham, of Rockville, were both at death's door, though they are now in a fair way to recover. Many others, advanced in life, have had hard work to pull through this spring.

Apple buyers are in a great flutter about the price that has appeared in the blossoms. It is doubtful after all, if there is much to be frightened about. The same insect was seen last year, at least many of us were.

Most of the farmers have sown their seed grain. Mr. Geo. Hobbs has sown over 100 bushels of wheat. Fishing is the order of the day for all who have a little leisure. Mr. R. E. Ketchum caught a black bass weighing 4 lbs.

There has been considerable mortality in the Dampey neighborhood lately. Six have died within a short time, all in advanced life, and one of them was a very old man.

On Sunday morning last Samuel Bryant died very suddenly. He was an old resident and a good neighbor. The funeral took place on Monday, the 14th inst. at 10 a.m. The interment was at the usual place.

On Monday, the 14th inst., the Rev. Mr. C. C. Cragg, of Belleville, officiated both at the church and at the grave. The sermon was one of the most eloquent and impressive ever heard in this place.

OUR VOLUNTEERS.

Extracts from the "Gazette" Regarding Camps of Instruction.

Interesting Items for Citizen Soldiers.

The following extracts from the "Gazette" will prove interesting to volunteers generally, and particularly so to those who are about to be sent to the camps of instruction. Much trouble, and in some cases expense, will therefore be saved by a personal knowledge of the regulations.

Corps of Infantry and Garrison Artillery, (excepting the battery at Victoria, B. C.) are not to exceed 100 non-commissioned officers and men per company and battery, including regimental staff sergeants and band.

Field batteries—1 captain, 2 lieutenants, 12 privates, 1 sergeant, 1 quartermaster, 1 surgeon, 4 sergeants, 4 bombardiers and drivers, and 20 horses, including the officers and non-commissioned officers.

Rural Corps—Selections to be made from rural corps of the different arms in each district in proportion to the number of men towards each other. Those not drawn from last year to be first taken.

COMMAND AND STAFF.

The following will be the staff of each camp of instruction:

In command, the Deputy Adjutant-General; one adjutant, 1 sergeant major, 1 assistant brigade major, with subaltern's pay; one supply officer; one camp quartermaster; one medical officer; one instructor of musketry; one orderly; and one provost officer; and five staff non-commissioned officers.

The commanding officer of each camp will be allowed five dollars, and each other officer on authorized strength of the staff of a camp of instruction will be allowed \$1.50 per day in camp in lieu of subsistence, together with one dollar and one dollar per day for one horse, if such is required and used by him in the discharge of his duties.

Each non-commissioned officer of the authorized strength of the staff of a camp of instruction will be paid an allowance of fifty cents per diem in addition to pay of rank in lieu of rations.

City and other corps who drill under the regulations for city corps will receive the pay of their respective ranks.

RAILWAY EXTENSION.

The announcement that the Dominion

Government had intimated that they would make as the current session the Parliament

liberal grants to several Colonization Railways, including the Napawan and Tanwari,

led to the hope that they might be included to include the extension of the Malton

branch of the Grand Trunk to the line of lines to be added. Accordingly the Minister

of Customs was communicated with, but Mr. Bowell's reply was to the effect that

the request was made too late to be entertained before the close of the session,

now near at hand.

We hope, however, that a strong effort will be made to secure a grant for the rail road next year.

THE NEW LICENSE LAW.

The publication of the provisions of the

Liquor License bill has, we have, relieved the

Globe of the fear which it expressed some weeks ago that Sir John was about to

deceive free trade in whiskey, and that every

corner would be compelled by a very

stringent one—more restrictive than the

Crooks Act, which the Grand organ has

declared to be the ne plus ultra of temperance

legislation. This statement, this statement, this statement, this statement, this statement,

was not only an improvement upon the

provisions of the Act, but on that of the

Liquor Commission.

The following are the names as to the

constitution of the Board of Liquor

Commissioners under the proposed

Act:

There shall be a Board of Liquor

Commissioners to be called "The Board"

composed of three persons for each

district.

(a) The Commission shall be:

(1) In the Province of Ontario, Nova

Scotia and New Brunswick, Manitoba,

Prince Edward Island, the County Court

Judge, or the Junior Judge of the County

Court, shall be selected by the Governor

in Council. In the Province of Quebec,

the Superior Court Judge of the judicial

district, except in the cities of Montreal

and Quebec, where it shall be the Judge

of the Peace. In the Province of

British Columbia each of the judges as

the Governor in Council may appoint.

(b) The warden of the city or mayor

of the city, where there is both a warden

and a mayor, having a jurisdiction within

the limits of the district, the former to be

the second commissioner. In the cities of

Montreal and Quebec, in the Province of

Quebec, the Recorder shall be the second

commissioner. In the Province of Prince

Edward Island, the sheriff of the county

shall be the second commissioner.

(c) The third commissioner shall be a

person appointed by the Governor-in-

Council, who shall hold office for one year,

or for the portion of the year not

unexpired in which he is appointed, but he

shall be eligible to hold office until his successor

is appointed.

2. In the Counties of Chateauguay, Gaspe

and Bonaventure, in the Province of Que-

bec, the Governor-in-Council may appoint

two commissioners, who, with the warden,

shall form the board; and in any unorganized

district, the Governor-in-Council may

appoint three commissioners.

3. The judge shall be chairman of the

board, and two of the said commissioners

shall form a quorum. In the absence of

the judge, the warden, or mayor, as the

case may be; and in Prince Edward Island

the sheriff, shall be the chairman.

In the absence of a chairman the

warden or mayor, or sheriff, shall have an

additional or casting vote.

PORTFOLIO OF THE REV. OF QUINCE

ANNUAL CONFERENCE.

Provo, Oct. May 17.—The forty-fifth

annual conference of the Methodist Episcopal

Church commenced at the town of Provo on

Wednesday, May 16th, at 7 o'clock p.m. The

chair was taken by Rev. J. P. Wilson, B. A.,

the presiding officer, who delivered by Rev. H. W.

Williams, F. E., of Napawin district after the

Secretary proceeded to call the roll of

members. The conference then proceeded to

elect a Secretary by vote. Rev. W. B. Bly, B. A.,

was re-elected; Rev. J. P. Wilson, B. A.,

re-elected Secretary; Rev. J. S. Bell, elected

Assistant Secretary; Rev. T. Chalmers, reporter

for the Globe and Mail. The meeting then

adjourned, the benediction being pronounced

by Rev. D. Wilson.

THE BISHOP'S VISIT.

Bishop Cairns, delivered a spirited and

lengthy address. He reviewed the work of

the other conferences just closed, reported

progress along the line, and gave an

address on the conference. The Church in

the present agitation is steady and quiet. He

taught upon the most agitated question of

Methodist Union. The quarterly conference

has the question largely in its hands, and

as constitutional people they must legally ac-

cept the issue and must accept the decision of

the Synod. All common sense must be

struck as usual, and if the Union were to

be ready to accept it.

The conference then proceeded to elect the

necessary committee by ballot, and a majority

of the vote elected on the first ballot, Rev. J. H.

George, of Ottawa, and Rev. W. Service,

Winchester, for the St. Lawrence District. The

result of the third ballot was no election.

BELLEVILLE, MONDAY, MAY 21.

"Without a Home."

We will in no manner's case commence

the publication of a continued story under

the above title, which will run through our

columns for several weeks. "Without a

Home" is from the pen of J. E. R.

Rox, who is one of the foremost writers of

modern fiction. In purity, in earnestness

of purpose, in exciting incident, it is one of

the best of modern stories, and we are

sure that it will be read with absorbing in-

terest from beginning to end, as only with

the close of the last chapter does the story

develop itself.

THE SHIFTLSS LIBERALS.

The Hamilton Tribune has criticised

Mr. Blake for his lack of a public policy,

our local contemporary, in exemplification

of the old proverb, rushed in where war

journals of the same stripe of politics feared

to tread. Its attempted display of its

leader, was a more striking of baseless asser-

tions, and its only result was to shift from

the Tribune a stinging reply. This answer

to the defense set on behalf of Mr. Blake

by his local antagonist we reproduce here-

with, as exemplifying the opinion which

Indignation with. Our latest articles of the

Liberal leader's course. "We are

told by our contemporary that Mr. Blake

does not rely upon a negative policy of

mere criticism, but that his criticism of

ministerial measures is not more than a

clarifier. There is, we admit, a plausible

air about the request! But what does it

amount to? Mr. Blake, like all Opposition

leaders, professes alarm at the rapid growth

of public expenditure, but beyond a few

words which are objected to, what

you have he proposed to reduce, showing

clearly by well-arranged facts that it was

in actual excess of the public requirements?

It is claimed, further, that his policy was

laid down in the resolutions of the last

Liberal convention. Is that? Why?

That convention was called to do honor to

Mr. Mowat, and to lay down a platform for

the then coming Ontario general election,

and Mr. Blake merely attended, as a promi-

nent supporter of Mr. Mowat's. Mr. Blake

cannot be held responsible for that plat-

form; nor would his French Canadian

followers care to have him so held.

Our contemporary repeats its claim that

Mr. Blake has at public meetings stated

his opinions upon public questions; but

those statements partake of the nature of

initiative proposals? The Ontario would

have us believe yes; but we say that if our

contemporary is not more fortunate in

making out a second list of initiative pro-

posals than it is in the first, which we give,

it will be singularly unfortunate. Mr.

Blake favors a radical and thorough reform

of the Senate. It remains to be seen if he

proves in any speech since he has become

leader of the Opposition. General and

vague intimations of reform have been

thrown out but that is all. He favors

temperance legislation. That means, we

suppose, a stringent temperance law, for he

secret that, like Mr. Anglin, he is (unless

he has experienced with the past few

months a Pauline conversion) strongly

opposed to prohibition, and it is prob-

able the chapter in "Milk and Liberty"

which opposes prohibition, contains the

only principle of that political

economist's teachings, the spirit of which

he has imbibed. Without the slightest

warrent the Ontario claims that Mr. Blake

believes that manhood suffrage should be

"the object sought in a revision of the

franchise." No liberal convention or

liberal leader has ever in this country pro-

posed manhood suffrage as a principle of

reform. It is true they have expiated at

it, but they have never said; Return us to

power and we will give you manhood suf-

frage. Consider for a moment the miserable

record of the last Liberal convention upon

this very subject. The resolutions were not

dried and all printed; but at the last

moment, through the representations of

some young Liberals who pointed to Mr.

Meredith's plank favorable to the reform

of the franchise, a resolution was adopted

looking in that direction. That the motion

was carried in loud applause is a matter

of common talk; as also is the fact that

the speaker upon it was cheered and ap-

plauded. They suddenly stop down to do

nothing but the dreary work. They

return, red and hot, and then draw it

out, saying, "How, how old!" They

return, red and hot, and then draw it

out, saying, "How, how old!" They

return, red and hot, and then draw it

out, saying, "How, how old!" They

return, red and hot, and then draw it

out, saying, "How, how old!" They

another day. How much better would it

be to plunge bodily in, and after the

momentary agony of the pleasure of

bathing, exclaiming, "The pleasure which

naturally attend it! It is only defective on

the point of the bath, which is not

the Liberal party would do well to note

that truth."

EDITORIAL PRIVILEGES.

A railroad bridge has claimed its third

victim. Why not the law as to the height

of these overhead bridges enforced?

Says the Hamilton Tribune:—"How

ungrateful the licensed violators are to

send deputations to Ottawa to oppose the

bill which Mr. Foster (according to the

press) has been preparing in his in-

terest! It is a queer kind of a new born

friendship Mr. Foster has for the licensed

violators, which he is a party to a bill which

intends to restrict this trade more than

the existing provincial legislation. Now,

Mr. Attorney, how do you explain this

inconsistency in the light of your much

praised impartiality?"

It is said, says the Montreal Tribune, that

the great first of Glasgow shipbuilders who

have the "Alaska" surpassed any pre-

vious attempt at combining speed, safety

and carrying capacity, and have been given

a contract by an American company, for the

construction of a line of similar vessels of

greater capacity, and guaranteed to possess

the speed of the "Alaska" "very" naturally,

and the intention of the company is to

pay to reduce the time of the passage

to five days at the most. The terminal point

of the line are to be Millford Haven, the

great harbor on the west coast of Wales,

Montauk Bay, the most easterly point of

Long Island, and they thus intend to com-

bine the fastest of ocean steamers, with

shortness of distance and the best possible

railway time. There appears to be but

little doubt that they will by this means be

enabled to reduce the time necessary to

cross the ocean by at least twenty-four

hours.

The Midland Railway will be provided with a new time table on the first of June. Inspection of the new time table will be provided with a new time table on the first of June.

NEGOTIATIONS for the sale of the *Nellie Coulter* are going on, and that is the reason why she did not run yesterday.

THREE arrests were made on Wednesday night and the victims were allowed to go and celebrate. But one entry appeared on the slate last night.

It has been decided that the fire limits by-law will be enforced and those who heretofore violate it will be fined and have their buildings torn down.

The drive for a new short distance house dam at Corby's mill, and had the portable house, etc., been in order the logs would have been here to-day.

An interesting letter from Mr. J. J. B. Flint, descriptive of what he saw on his recent trip to the North-west, is unavoidably held over until Monday's issue.

Business in Deseronto is first class, and with the exception of the seed and door factory, the mills and other workshops there were in full blast yesterday. Trade is excellent.

Mr. C. T. Turner was elected Assistant Deputy Grand Master of the Grand Lodge of True Blues and also Deputy Grand Master of the order for the Hastings District at the recent meeting of the Grand Lodge at Oshawa.

Mr. ALAN ROBERTSON, M. P. has gone to Montreal to consult Dr. Buller, with a view to having removed an obstruction in the nose, which is causing him much pain in the head and ear. He expects to return on Tuesday or Wednesday next.

COMPLAINT is made that the assessors have not left notices with all those whom they have assessed. One firm goes so far as to assert that they hired a boy to stand by their front door entrance to be prepared for "a visit," but the paper never reached them.

MOIRA Hoxe went to her new home on the occasion of her turn out yesterday. Formerly it was necessary to import such articles from the United States, as it was thought they could not be made as good as the imported article; even some who are competent to give an opinion on such matters asserted that the equal of the New York bairns could not be produced here. Mr. Ed. Hoxe was the last of the bairns. It is good, guaranteeing that he would present a good ball as could be imported, and for less money. How well he fulfilled his promise, those who have seen the bairns can judge. The "dickies" are white with red binding, and the work is especially fine. Ed. was the recipient of many compliments yesterday and has good reason to be proud of the work he has turned out.

News of the death, in California, whether he had gone for the health of his health, of Francis W. Clark, late postmaster at Holloway, has recently been received. He was 72 years of age and was highly popular among his acquaintances. He leaves a widow and one child.

A RAKE in the 40th cove of Thudon, near Corby's mill, owned by Mr. Benton, took five from a spark from an engine this afternoon and was destroyed, together with a quantity of grain and hay, and a coat. Loss \$2,000; insurance \$1,000.

WEATHER PROBABILITIES—Toronto, May 25.—Lake, and upper St. Lawrence, moderate to fresh southerly to easterly winds, fair to fine weather, with showers in some localities.

The May District Meeting of the Methodist Church.
 The meeting now closing has been one of harmony and despatch. The labors of the past year have been marked with encouraging results. Numerous conversions to God, and greater industry on the part of our devoted people in the temporal and spiritual interests of our Church.

The appointment of the several committees was as follows:—
 STATIONERY.—Rev. E. Clement, of Trenton; School Secretary.—W. H. Waggell, Esq., of Belleville;—Marshall, Esq., of Belleville.

THE CHURCH SECRETARY.—Rev. Robert N. Bisset, Esq., of Belleville.
 Throughout the work under the charge of our esteemed chairman, the prospects are very encouraging and never more prosperous in many respects than at present.

The Missionary reports will be several hundred dollars in advance of last year, and the whole financial statement is of a most encouraging nature.
 For the proceedings were brought to a close, the following resolution was unanimously adopted:

Moved, by J. W. Savage, seconded by Mr. McKewen, and carried:
 That our beloved Chairman, Rev. Dr. Jaffes, have presided over the Belleville District for the past 3 years, we wish to record our high appreciation of his ability, kindness, and untiring efforts in the interests of the Church at large, whether in this or any other District of our work.

The Chairman made a courteous reply. After which the meeting closed with the benediction, by Rev. W. Young, of Trenton.

YACHTING.
 Work on the *Isabelle* has been resumed. The *Yacht* made her first trip this year, yesterday and showed up in good shape. The *Gracie* made a trip to Massawakee yesterday and conveyed thirty 10 persons who were desirous of seeing the last of the season. The *Gracie* was out on the lake yesterday and showed up in good shape.

ANOTHER CELEBRATION OVER.

And All is Quiet on the Mohr and on the March.

There was nothing very remarkable about the celebration yesterday, for it did not differ much from many of the predecessors in the past. The celebration was a success, and all was quiet on the Mohr and on the March.

A Trip to the North-West.

PROBLEMS OF BOTH SIDES OF THE LINE.

To the Editor of the Intelligence.

My Dear Sir—Such a deep interest

is manifested in the North-West by my fellow

citizens, and so many inquiries are asked

of me, that I deem it advisable, in a very brief way,

to mention some of the facts which came to my notice

on a recent visit.

The cities of St. Paul and Minneapolis are

making great strides in the race of progress.

In one year both cities have grown enormous.

St. Paul is now the largest city in the West.

The great backbone of Minnesota is the water

power, which drives some sixteen miles

of water, and is now being developed.

The water power is now being developed.
